Sharing, real-time collaborative co-editing, and secure mobile access.

V 8QLÌHG DUFKLYLQJ
Complete oversight of your messaging system by archiving all messaging data.

**V 6HFXULW **
Antivirus, anti-spam, cybercrime protection, and DoS/DDoS protection.

OpenText™ Enterprise Messaging provides enterprise-grade email, instant messaging, and chat-based collaboration with unparalleled security and archiving in the cloud.

Enterprise Messaging enables employees to collaborate anytime, anywhere, on any device, while maintaining security and meeting compliance. Enterprise Messaging provides you

Enterprise Messaging

Connect with Us

keep users from downloading sensitive data from the Filr repository while stilling allowing them to access and edit.

Complete and Compliant Archiving

Enterprise Messaging enables you to have complete oversight and visibility of your messaging system by archiving all messaging data.

This cloud archive includes built-in eDiscovery tools, that allow you to access, search, place litigation holds, tag, print, forward, save, redact, and export archived data.

Unparalleled Security

Enterprise Messaging includes unparalleled security for your messaging system and network in the cloud. All messages are routed through the Enterprise Messaging cloud security solution, allowing for inbound and outbound protection, antivirus, anti-spam, cybercrime protection, and DDoS protection. Enterprise Messaging uses the latest technology to keep your messaging system protected, including protection for the messaging transfer agent (MWAA), WebAccess, and Mobility.

Secure Instant Messaging

Communicate in real time with your co-workers through Enterprise Messaging. Employees can collaborate wherever they are, regardless

of workstation or device. It also provides presence indicators to show when users are online, busy, or away from their desks. Built-in archiving can automatically save important conversations for future reference too. Instant messaging gives you real-time access to your colleagues so you can make decisions and address issues quickly.

Mobile Access

Stay connected from any mobile device with the Enterprise Messaging mobile app. You also have archive access from your iOS

or Android device, via the archive mobile app. Use any web-enabled device for ultimate mobility.

Disaster Recovery

Because Enterprise Messaging is hosted in the cloud, you have guaranteed uptime and your system is monitored 24/7. If there are performance problems, or if your system does go down, the experts at OpenText™ will work to make sure your system is running at its peak performance and that no data is lost. Either way, you are covered.
