 **Speeds business cycles** with efficient, streamlined processes

 **Decreases cost** of global delivery of documents

 **Tracks and monitors** thousands of critical enterprise documents

Reliable, efficient, and cost-effective information delivery is an essential business requirement

OpenText Output Management is a leading solution for reliable, efficient, and cost-effective information delivery. It helps organizations reduce the risk of human error, streamline business processes, and decrease the cost of global document delivery. OpenText Output Management is a leading solution for reliable, efficient, and cost-effective information delivery.

OpenText Output Management is a leading solution for reliable, efficient, and cost-effective information delivery.

Reduces loss of revenue

Output Management removes the risk of human error from shuffling information around and ensures it gets deployed in the proper form to the appropriate output. As a result, the solution helps reduce potential losses of revenue to employee mistakes, malfunctioning printers, network errors, delayed documents, misrouted documents, security breaches, regulatory compliance fines, and damaged reputation in the marketplace.
